DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-48 & 63-77 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The phrases "if said pixels is closer to said edge than to any edge" (claim 1, line 9; claim 5, line 6; claim 14, line 12; claim 25, line 11; claim 29, line 7; claim 38, line 13; claim 63, line 10; claim 66, lines 8-9) and "in the case that said pixel is closer to said edge pixel than to any edge pixel" (claim 78, lines 8-9) appear to be self-contradictory. For the purpose of comparing the claims to the Prior Art, Examiner infers that these phrases should read "...any other edge."

Allowable Subject Matter

3. Claims 49-62 & 78-79 are allowed.
4. Claims 1-48 & 63-77 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Art Unit: 2624

5. The following is a statement of reasons for the indication of allowable subject matter:

Re claims 1, 25, 49, 55, 60, 63, & 78 (and dependent claims 2-24, 26-48, 50-59, 61-61, 64-77, & 79), the art of record does not teach or suggest the recited setting of trap pixels in response to the recited determination of pixel distance from a trap edge and comparison of this distance to the pixel distance from other edges.

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Deutsch et al, Becker et al, and Klassen disclose examples of pixel trap arrangements.
